The Lenovo ThinkCentre neo 50q Gen 5 is a compact personal computer designed for efficiency and performance in an ultra small form factor. Equipped with an Intel Core i5 processor, it offers robust processing power with a clock speed of 2.1 GHz, reaching up to 4.6 GHz with Turbo Boost. The system features dual-channel DDR5 SDRAM, providing rapid data transfer rates and support for multitasking. Security is a priority, with a discrete Trusted Platform Module (TPM 2.0) chip ensuring safe transactions and data integrity. Ideal for office environments or home use, this PC supports
