Model: C01FCAA#AC3

Manufacturer: HP INC.

EAN: 199251821936

Product Code: 1059298

R3,103

The HP Poly Mission 825 headset is designed to enhance communication with audio input and output features. Equipped with a boom microphone that operates in wideband audio mode, it leverages AI-enhanced noise reduction technology, clarifying conversations even in noisy environments. With a frequency response range of 50 - 16,000 Hz and a signal-to-noise ratio of 58 dB, this headset ensures quality audio delivery for both calls and multimedia.

In addition to its advanced microphone capabilities, the HP Poly Mission 825 offers monaural ear parts with stereo sound output mode. The soft PU leather and memory foam earpads provide comfort during long hours of use. With wired connectivity through USB-A and USB-C, and compatibility with major operating systems such as Windows, iOS, and Chrome OS, this headset meets the demands of professionals and also serves well for personal use. The 2 m cable length offers ample room for movement, and features like mute, volume control, and active noise-canceling technology make it a practical choice for users seeking efficiency in their audio experience.
