consumers.

Connectivity is essential for any modern workstation, and this model does not disappoint. It features multiple ports including USB-C 3.2 Gen 2, HDMI, and DisplayPort 1.4a, allowing for integration with various peripherals. The built-in speaker adds convenience for audio playback, while the included Lenovo Traditional Keyboard and Lenovo Calliope Mouse offer a computing experience. The compact size of the M70q makes it easy to fit into tight spaces without compromising performance or features.
