R70,425

The Lenovo ThinkStation P2 Gen 2 is a powerful workstation designed to meet the demanding needs of professionals. Equipped with an Intel Core Ultra 7 processor and DDR5 SDRAM, this tower-form factor desktop offers exceptional performance, making it ideal for tasks that require high processing power and speed. The built-in Realtek ALC623-CG audio codec ensures high-definition audio output for an enriched multimedia experience, while the M.2 2280 SSD provides swift data access and improved overall system responsiveness. Support for Intel vPro Enterprise platform technology enhances security and manageability, ensuring the workstation meets the rigorous standards

required for business environments.

With features such as dual-channel memory architecture and an 80 PLUS Platinum certified power supply, reliability and efficiency are core components of this workstation. Equipped with various networking options, including Gigabit Ethernet, the Lenovo ThinkStation P2 Gen 2 is prepared for seamless connectivity in any professional setting. Its design includes a Kensington security slot and a padlock loop for theft and intrusion protection, allowing users to maintain the security of critical data and hardware.
