

Fujitsu MAP3367NP internal hard drive 36 GB 10000 RPM 8 MB 3.5" SCSI

Model: MAP3367NP

Manufacturer: FUJITSU

Product Code: 10602

R1,501 ~~R3,848~~

MAP3367NP Fujitsu 36GB

Fujitsu's current generation of Enterprise SCSI Hard Disk Drives offer capacities of up to 147GB in a 1-inch high, 3.5-inch form factor.

The MAP SCSI series is the current generation Hard Disk products from Fujitsu offering low profile, high speed and high capacity to high performance enterprise computing applications.

The MAP (NP) series comes with a 68-pin interface connector, spindle speed of 10K RPM and capacities of 36, 73 and 147GB. Areal density has doubled and internal drive transfer rates have been increased by 25% to 107 MB/s when compared to the previous MAN series. The drive is also equipped with an 8MB multi-segmented data buffer combined with a 32-bit wide internal data path for faster data access.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The MAP NC/NP series supports the Ultra 320 SCSI (320MB/s) interface which offers new performance and reliability enhancing features such as data packet protocol, quick arbitration and selection, and signal pre-compensation.

Leading edge technology enables industry leading performance specifications blended with the latest advances in interface technology, to provide a cost effective storage solution that meets the most demanding enterprise storage requirements.
