

WD Blue SA510 SATA SSD 2.5inch/7mm Cased - 1TB

Model: WDS100T5B0A-00LMP0

Manufacturer: SANDISK

EAN: 619659225445

Product Code: 1060761

R6,470

The SanDisk WD Blue SA510 internal hard drive offers reliable storage with a capacity of 1 TB, making it ideal for users needing significant space for files, applications, or operating systems. Designed in a 2.5-inch form factor, this solid-state drive provides efficient data transfer rates up to 600 MBps and internal data rates of 560 MBps and 520 MBps for read and write operations, respectively.

This SSD also boasts excellent endurance with a lifespan of 400 TB and a mean time between failures (MTBF) of 2,250,000 hours. The drive operates under a wide temperature range, ensuring reliable performance in diverse environments. Additionally, it features robust shock and vibration tolerance, safeguarding data integrity during operation, making it a solid choice for both everyday use and demanding applications.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
