CHERRY MX 10.0N keyboard Universal USB AZERTY French Black

Model: G8A-25010LVBFR-2

Manufacturer: CHERRY

EAN: 4025112096495

Product Code: 1060846

R5,025

The CHERRY MX 10.0N RGB keyboard provides impressive proof of how flat a premium mechanical keyboard can be. This is enabled using CHERRY MX LOW PROFILE RGB SPEED switches, which are exclusively manufactured in Germany. The overall height of the USB keyboard is just 22 mm. This allows you to type ergonomically and comfortably even without a palm rest. Although it is elegantly slim, its solid metal construction immediately catches the eye. Even the fold-out foot is made entirely of aluminum. As a special feature, this foot folds in automatically as soon as you lift the keyboard up. The keyboard is stable on the desktop and will not slip regardless of whether the foot is up or not. Each key contains an RGB LED with up to 16.8 million colors. In addition to pre-programmed effects, you can also choose your own colors or illuminate individual keys. You have the choice between vivid color effects or discrete single-color lighting. CHERRY MX LOW PROFILE RGB SPEED switches can withstand more than 50 million presses per key. Despite the low profile, you immediately sense the inimitable MX feeling with every keystroke. The switching characteristic is

linear, i.e., with no click and without noticeable resistance. The switching point takes effect after actuation of just one millimeter. It is not necessary to push the key all the way down. This not only increases the reaction time, but also ensures that every keystroke is registered. A huge advantage and not just for gamers. Due to the robust construction, great durability and adjustable illumination, the MX 10.0N RGB is not only suitable for gamers and computer enthusiasts, but also for industrial applications. The compact keyboard is at home anywhere and is a genuine all-rounder!
