

Kingston Technology IronKey 32GB Locker Plus 50 G2, FIPS 197, AES-256

Model: IKLP50G2/32GB

Manufacturer: KINGSTON

EAN: 740617353600

Product Code: 1061202

R1,725

FIPS 197 certified, AES 256-bit encrypted

Kingston IronKey™ Locker+ 50 G2 USB Flash drive provides enterprise-grade security with FIPS 197 certified AES 256-bit hardware-encryption in XTS mode, including safeguards against BadUSB and brute force password attacks. LP50 G2 is also TAA compliant.

LP50 G2 with newly redesigned modern casing supports a multi-password (Admin and User) option with Complex or Passphrase modes. Complex mode allows for passwords from 6-16 characters using 3 out of 4 character sets. Passphrase mode allows for a numeric PIN, sentence, list of words, or even lyrics from 10 to 64 characters long. Admin can enable a User password, or reset the User password

to restore access to data. To aid in password entry, the “eye” symbol can be enabled to reveal the typed in password, reducing typos leading to failed login attempts. Brute force attack protection locks out User upon 10 invalid password entries in a row and crypto-erases the drive if the Admin password is entered incorrectly 10 times in a row. Additional features include anti-fingerprint coating and a built-in virtual keyboard to shield passwords from keyloggers or screenloggers.

Locker+ 50 G2 is designed for convenience with metal casing and built-in key loop to take your data anywhere. LP50 G2 is easy for anyone to setup and use, with no application installation required; all the software and security needed is already on the drive. Works on both Windows® and macOS® so users can access files from multiple systems.

Enterprise-grade hardware-encrypted USB drive

FIPS 197 Certified, XTS-AES 256-bit encryption safeguards important data with built-in protection against BadUSB & brute force attacks.

Multi-password option with Complex/Passphrase modes

Admin can reset a User password to restore User’s access to data with either Complex or Passphrase password mode. Passphrases can be a numeric PIN, sentence with space characters, list of words, or even lyrics – from 10 to 64 characters long.

Additional security features

Reduce failed login attempts and frustration by enabling the “eye” button to view the typed password. LP50 G2 has anti-fingerprint coating and a virtual keyboard to shield password entry from keyloggers and screenloggers.
