D-Link 5G M2M VPN Wi-Fi 6 Router

Model: DWM-550-G

Manufacturer: D-LINK

EAN: 790069475290

Product Code: 1061537

R13,104

5G SA & NSA

Leverage flexible 4G/5G dual-mode compatibility to adapt seamlessly to diverse carrier networks.

Dual-SIM Failover

Two SIM slots with auto-failover redundancy to ensure uninterrupted cellular WAN connectivity.

Ethernet & 5G Redundancy

Seamless failover between Ethernet WAN and 5G for reliable connectivity.

Industrial-Grade Durability

Corrosion-resistant zinc-plated steel casing and robust design ensure reliable operation in harsh environments.

Secure VPN Protection

Protect sensitive data transmission via secure VPN tunnels to prevent unauthorized network access.

Wi-Fi 6 AX1800

Drive Wi-Fi 6 to cover various portable and IoT device networking services.

Carrier Diversity and Network Redundancy

The DWM-550-G 5G M2M Router ensures continuous service with Dual SIM (Nano-SIM 4FF) support for enhanced carrier diversity and network redundancy. Reliable connectivity even in locations with limited coverage is now possible. Additionally, it includes four LAN ports, one configurable as a WAN, giving you flexible options to seamlessly switch between Ethernet WAN and 5G connections, ensuring you always have the best network access.

Secure Your Network with VPN

The DWM-550-G 5G M2M Router boosts network security with robust VPN support, offering protocols such as IPSec, OpenVPN, PPTP, L2TP, GRE and WireGuard. These features enable encrypted connections, versatile tunneling, and secure remote access to protect sensitive data effectively. Ideal for retail operations, small shops, pop-up booths, and smart parking systems, the DWM-550-G ensures that financial transactions and customer information are securely managed and transmitted.

Robust Build Quality

The DWM-550-G is designed to maximize M2M connection reliability and availability, featuring a corrosion-resistant zinc-plated steel casing, wide voltage input range, wide operating temperature range and humidity tolerance, making it suitable for the most demanding M2M applications in virtually any environment.
