## From login to collaboration, smarter every step

**Multi-user login**

**Your personal space**

Your workspace, protected and on command. Turn the interactive display into your personal device with secure login and instant access to your cloud storage, signed-in websites, and app shortcuts.

**Built-in AI features**

**Do more with AI**

Get quick answers, capture key points, and bring concepts to life with stunningly enhanced visuals.

## Color precision for every industry

Professional-grade accuracy with 95% DCI-P3 coverage and expert-tuned color modes.

## Pantone mode

Reproduce over 2,000 Pantone colors with precision, plus over 110 scientifically calibrated human skin tones.

## M-book mode

Optimized for designers using the MacBook. Brilliant colors faithfully reproduced.

*MacBook® is a trademark of Apple Inc.

## High-detail mode

Sharper contrast accentuates details. Perfect for schematic diagrams, codes, and blueprints.

## DICOM mode

Medical-grade accuracy when displaying digital images, with no loss of detail.

*DICOM mode is intended for training purposes only and not for medical diagnostic use.

## ePaper mode

Grayscale lowers brightness for visual comfort and optimal use in text-heavy tasks like reviewing contracts and financial data.

**Next-level video conference**

## Everyone, in perfect view

Collaborate as if in person with 4K fidelity, AI tracking, a wide viewing angle, and more.

## Hear and be heard

Conversations flow naturally with every participant heard clearly, free from echoes or distractions.

## Seamless, wireless sharing

Cast your entire screen, a single app, or extend your interactive display with InstaShare 2. For app-free sharing, use Miracast, AirPlay, Google Cast, or webcasting.

## Cast only what's necessary

Share just an app or your presentation to the extended screen. The rest stays private.

## An unlimited workspace

BenQ EZWrite is a powerful whiteboard with a collection of tools designed for more engaging presentations and discussions.

## Import. Brainstorm. Share

Bring slides, spreadsheets, documents, images, or videos to an infinite canvas. Drive creativity, collaborate seamlessly, and share results effortlessly with stakeholders.

**Tools for every situation**

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

## Full-featured USB-C

Share your screen, charge your laptop, and control directly from the board.

## Meeting reservation

Book rooms and check schedules with our MeetingRoom system.

## Ink freely

Add notes and highlight on top of any app, document, or input source.

## Side-by-side drag and drop

Easily move content between Chrome and EZWrite.

**Less hassle for IT**

**Secure, personalized logins for meetings**

No manual account setup needed with directory sync. Import users from Google, Microsoft, and other identity providers and manage interactive displays with ease.

## Deploy, manage, and protect. Your way

The BenQ ecosystem simplifies device, app, and account management, reducing the workload for IT administrators.
