The HP EliteBook X Flip G2i Notebook Next Gen Ai is a convertible 14-inch touchscreen notebook designed for professionals who need flexible, secure, and AI-enhanced productivity on the go. Its 360-degree flip design and responsive touchscreen let users switch between laptop and tablet modes for note taking, presentations, and collaboration, while the compact 14-inch display and HP Eye Ease certified panel help reduce eye strain during long work sessions.

The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Built to accelerate AI workflows and everyday tasks, the system combines an Intel Core Ultra X7 processor, Intel Arc graphics, and an on-device Neural Processing Unit that supports popular AI frameworks to deliver responsive on-device inference and multimedia performance. Connectivity options include Thunderbolt 4/USB4 with Power Delivery, multiple USB-C ports, and HDMI for flexible docking and external display setups, and Wi?Fi 7 plus Bluetooth 6.0 help maintain fast wireless connections.

Security and reliability are emphasized with secured-core PC features, MIL-STD-810H testing, HP DriveLock, a chassis intrusion sensor, and a Kensington nano security slot, while user-facing features such as AI noise reduction for the microphone array, four stereo speakers tuned with Poly Studio, an ambient light sensor, and a spill-resistant keyboard contribute to a productive and comfortable user experience.
