enable ultra-responsive apps. It takes the ability to capture a wealth of data to streamline and automate workflows, and empower workers with a new level of business intelligence—plus the durability to handle whatever the workday brings. Get it all with the TC501. A groundbreaking new processor is the new heart of the TC501, built specifically to enable high performance AI on-device. Zebra’s most powerful platform offers the most memory, the most advanced display technology, the fastest wireless networks and the most data capture options in any TC5 device—all in the most rugged TC5 device we’ve built to date. And develop AI apps in days instead of months with Zebra’s Frontline AI Suite. Empower your workers to work smarter every day with the TC501—the mobile computer built for the AI-powered generation.
