Long-lasting antibacterial treatment

Stay clean, stay healthy

The bezels and hotkeys on VY229HF feature an antibacterial ionic silver treatment1. By preventing bacteria adhesion2 by up to 99.9%, it keeps key areas of the monitor clean and hygienic, potentially reducing the spread of harmful bacteria.

VY229HF has been subjected to the ISO 22196 Antimicrobial Activity and Efficacy tests conducted by independent testing lab TÜV SÜD.

How Ionic Silver works

Positively-charged silver (Ag+) ions bind with the cell walls of negatively-charged microbes and bacteria, disrupting their internal functions and killing them off.
