

Mini PC Minix NR660LP Ryzen 5 6600H 16GB 512GB Windows 11 Pro

Model: NR660LP

Manufacturer: MINIX

EAN: 4897016413056

Product Code: 1063552

R10,978

Minix NR660LP Mini PC with Ryzen 5 6600H, 16GB RAM, 512GB SSD, and Windows 11 Pro

The Minix NR660LP Mini PC is a powerful and extremely compact device that combines the power of the AMD Ryzen 5 6600H processor with fast LPDDR5 RAM and a high-capacity SSD. It ensures smooth performance whether you're working, entertaining yourself, or learning, and its support for 4K@60Hz allows you to enjoy exceptional visual quality. With support for three monitors and modern Wi-Fi 6E and Bluetooth connectivity, you can work and create without limits. An advanced cooling system ensures stable performance while maintaining low noise levels. This solution combines a compact form factor with the capabilities of a full-size computer.

Excellent performance with Ryzen 5

At the heart of the device is the AMD Ryzen 5 6600H processor, offering 6 cores and 12 threads, backed by 12 MB of cache and clock speeds reaching up to 4.5 GHz in turbo mode. Combined with AMD Radeon 660M graphics, it delivers a significant performance boost (up to approximately 30% higher than the previous-generation Ryzen 5 5600H). This configuration enables comfortable multitasking, smooth use of office applications, remote learning, as well as multimedia and light graphics tasks.

Memory and storage tailored to your needs

The use of 16 GB of LPDDR5 memory clocked at 6400 MHz guarantees fast data access and high system responsiveness. You also have a 512 GB SSD at your disposal, and the device's design allows for expansion thanks to two M.2 2280 PCIe 3.0 x4 slots. This means not only ample storage space for files but also the ability to further increase storage capacity as needed.

4K Display and Triple-Monitor Support

The Minix NR660LP Mini PC supports 4K Ultra HD resolution at 60 Hz, resulting in a crisp, detailed, and color-rich image. Thanks to the presence of HDMI 2.0, USB-C 3.2 Gen2, and DisplayPort ports, it is possible to connect up to three monitors simultaneously at 4K@60Hz. This is the perfect solution for people working on multiple screens, creating content, or building a home entertainment center.

Quiet and Efficient Operation

Stable performance is ensured by an advanced cooling system utilizing a copper heat pipe and an active fan, supported by high-quality thermal paste. The design has been optimized to effectively dissipate heat while maintaining a low noise level of approximately 32 dB. As a result, the device operates efficiently and quietly even under heavy load.

Interference-free connectivity

The Minix NR660LP is equipped with tri-band Wi-Fi 6E (802.11ax) wireless connectivity, ensuring a fast and stable network connection even in challenging conditions. Added to this is Bluetooth 5.2

support, allowing for convenient connection of wireless accessories such as mice or keyboards. An additional advantage is the two Gigabit Ethernet ports, which enable an even more stable and efficient wired connection.

Versatile Use

Thanks to its versatility, the Minix NR660LP Mini PC is perfect as a computer for office work and study, as well as a multimedia hub in a home theater. Its compact design makes it easy to integrate into any environment, whether on a desk or in a living room. This device combines performance, functionality, and modern technology in a single, compact chassis.

Included

- MINIX NGC NR660 LP Mini PC
- HDMI cable
- VESA mount
- 19V/5A power adapter
- User manual

Manufacturer	Minix
Model	NR660LP
CPU	AMD Ryzen 5 6600H
Storage	512 GB NVMe M.2 2280 PCIe 3.0 x4 SSD / 2 NVMe M.2 2280 PCIe 4.0 x4 SSDs with up to 8 TB capacity
Cooling system	Active cooling system
Ethernet	RJ-45 1G x2
Operating system	Windows 11 Pro (64-bit)
GPU	AMD Radeon 660M
Wireless	RZ616 – Tri-band Wi-Fi 6E (2.4 GHz/5 GHz/6 GHz) compliant with the 802.11ax standard, Bluetooth 5.2
