

SYNOLOGY RS2423RP+II 12- BAY Rackstation AMD Ryzen Embedded V1780B 8GB RAM HDD/SSD Only

Model: RS2423RP+II

Manufacturer: SYNOLOGY

EAN: 4711174726752

Product Code: 1063695

R71,706

The Synology RackStation RS2423RP+II is designed for efficient network storage, catering to an array of applications, including media streaming and data hosting. It supports up to 12 devices with hot-swap functionality, ensuring easy maintenance and upgrades without downtime. The advanced cooling system with built-in fans helps maintain optimal performance while reducing noise levels at 56.2 dBA, making it suitable for a variety of environments.

Equipped with processing capabilities through its quad-core Ryzen processor, clocking up to 3.6 GHz, the RS2423RP+II supports a range of network protocols and services. This includes support for iSCSI, SMB, and various encryption standards like AES-NI, ensuring data integrity and security. With 8 GB of
