The classic Kailh Blue mechanical switches deliver accurate, responsive key commands and offer precise tactile and audible click feedback. With a lifetime of up to 50 million keystrokes, the Aethon 303 will be at your side throughout your most intense gaming sessions.

Ergonomic Design

Up your game with an ergonomic arc layout, suspended keys, and an RGB ring and key backlights. A foldable stand lets you reangle the keyboard for maximum comfort. Sporting a matte-finish texture, the sturdy aluminium alloy panel is built to take the button mashing of hardcore play.

N-Key Rollover & Programmable Input

The 104 keys are conflict-free, ensuring input accuracy if you press multiple keys at once during fast-paced play. Users can create macros and re-assign keys to play the game their way.
