Model: NSL-1178

Manufacturer: NATEC

EAN: 5901969411430

Product Code: 1063809

R746

Natec Bear 2 are universal, lightweight stereo headphones. Ferrite transducers used in the headphones ensure high sound quality, while a rotating omnidirectional microphone records every word of the user without unnecessary noise. The comfortable earmuffs are pleasant to touch and allow the skin to breathe. In addition, the comfort of use is enhanced by a flexible headband, while the cord in the textile braid guarantees durability and a long service life.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
