SANDISK Optimus GX PRO 8100 PCIe 5.0 NVMe SSD 8TB with Heatsink

Model: SDSP82800TAH-000E0

Manufacturer: SANDISK

EAN: 619659231002

Product Code: 1063929

R53,090

The SanDisk Optimus GX PRO 8100 is the internal hard drive for those seeking robust performance and reliability. With a storage capacity of 8 TB, this SSD accommodates extensive data applications and workloads seamlessly. It features an M.2 2280 D5-M form factor and utilizes PCI Express 5.0 technology, delivering internal data rates of up to 14,900 MBps for read operations and 13,200 MBps for write operations.

Equipped with an integrated heatsink and advanced nCache 4.0 technology, the GX PRO 8100 ensures optimal thermal management and data integrity under heavy loads. With an MTBF of 175,000,000 hours and compliance with various standards including RoHS, this drive is designed for durability and performance, making it a reliable choice for consumers and professionals alike.
