

LEXIP PU94 3D Wired Mouse

Model: JVAPCM00430

Manufacturer: PIXMINDS

EAN: 3760210998951

Product Code: 1064101

R1,782

Experience precision and control with the PIXMINDS Lexip Pu94 wired mouse, designed for gamers and professionals alike. This mouse features advanced laser movement detection technology with a movement resolution of up to 12000 DPI, ensuring every movement is accurately translated into action on-screen. With programmable buttons and two joysticks, users can customize their experience to enhance gaming performance or streamline productivity tasks. The ceramic feet enable smooth gliding across various surfaces, while the reliable Omron technology ensures responsiveness and durability for extended use. The USB interface allows for easy Plug-and-Play connectivity, enabling immediate use without installation. The combination of features in the Lexip Pu94 mouse makes it suitable for various applications, offering an efficient solution for those who demand precision and versatility in their input devices.
