R1,560

The PIXMINDS Lexip x Tsume NARUTO SHIPPUDEN Kakashi mouse delivers precision and versatility for gamers. With wired connectivity technology and advanced optical movement detection technology, this mouse ensures a seamless gaming experience. The Pixart PAW 3327 optical gaming sensor supports up to 12000 DPI, allowing for real-time sensitivity switching from 100 to 12000 DPI, which can be customized through its 12 programmable keys. Adjustable weight and ceramic feet provide a comfortable, smooth glide over various surfaces.

Designed for gamers, the mouse includes a scrolling wheel and backlighting to enhance the aesthetics of any gaming setup. The sturdy braided cable minimizes tangling and enhances durability. With a total of 20 million clicks, this mouse is built to last, ensuring gamers can enjoy extended gaming sessions without compromising performance. The innovative thumb joystick adds an extra layer of control, making the PIXMINDS Kakashi mouse a tool for any gaming enthusiast.
