LENOVO ThinkStation P5 Tower G2 1000W Intel Xeon 638 32GB 1TB SSD W11P 3 Year On-site

Model: 30KB000JMH

Manufacturer: LENOVO

Product Code: 1064243

R111,514

The Lenovo ThinkStation P5 Gen 2 is designed for professional workloads and provides a reliable platform for demanding tasks. Equipped with a powerful Intel Xeon processor and supporting quad channel memory architecture, this workstation handles intensive applications with ease. With 8 DIMM slots available and a total capacity of 1 TB SSD, it offers ample storage and performance for various computing needs.

Security and manageability are paramount in this workstation. It features a Discrete Trusted Platform Module (TPM 2.0) security chip, along with a chassis intrusion switch for theft protection. Compliant with FIPS 140-2 and TCG certified standards, it ensures data integrity and security, making it suitable for environments requiring stringent compliance measures.
