

HP EliteBook 8 G2i Intel Core Ultra 5 325 13inch 16GB 512GB W11P 3YW

Model: DE7B9AT#ABB

Manufacturer: HP INC.

Product Code: 1064498

R57,744

The HP EliteBook 8 G2i Next Gen Notebook is a business-focused notebook designed to support productive, secure, and AI-enhanced workflows. It delivers AI-accelerated features for on-device inferencing with Intel AI Boost and broad framework compatibility, while offering a comfortable typing and navigation experience with a spill-resistant keyboard and multi-touch clickpad.
This notebook helps maintain connectivity and collaboration with a wide selection of ports including USB4/Thunderbolt 4 with DisplayPort 2.1, USB-C with Power Delivery, USB 3.2, and HDMI, and it supports fast charging and extended battery use through HP Fast Charge and Power Delivery. Built for managed and secure environments, it includes features such as HP DriveLock, chassis intrusion detection, Secured-core PC capability, and MIL-STD-810H testing to support durability expectations. Audio and conferencing are enhanced by dual stereo speakers with Poly Studio and AI noise reduction for clearer voice capture, while system management and platform protections are supported by HP Sure Platform and BIOS update via network capabilities, helping IT teams maintain
