Product Code: 1064520

R50,598

The HP EliteBook 8 G2a Notebook Next Gen AI is designed for professionals seeking a reliable and efficient computing solution. Featuring a vibrant 1920 x 1200 WUXGA LED display with anti-glare technology, this notebook ensures comfort during extended use while delivering excellent image quality. The powerful AMD Ryzen AI 5 processor with 6 cores and 12 threads provides impressive performance, complemented by 50 TOPS through the AMD Ryzen AI Neural Processor Unit, suitable for demanding tasks.

The notebook also includes various features that enhance usability and security. With AI noise reduction for clear audio input and dual stereo speakers powered by Poly Studio, it provides enhanced sound quality for virtual meetings. Additional built-in features include a 5-megapixel IR camera, HP Fast Charge technology, and advanced security through HP Tamper Lock and secured-core PC capabilities. Connectivity is supported through multiple ports, including USB4/Thunderbolt 4, USB-C 3.2, and HDMI, ensuring versatile and efficient data transfer and display options.
