Product Code: 1064530

R92,160

The HP ZBook X G2i Mobile Workstation is a versatile solution designed for professionals who require powerful performance on the go. With its Core Ultra 9 processor and 16-core architecture, this mobile workstation delivers computing capability, reaching speeds of up to 4.9 GHz. The 16-inch LED display ensures vivid visuals, enhanced by IPS technology and anti-glare features for a comfortable viewing experience in various lighting conditions.

Equipped with a 1 TB SSD, the ZBook X offers storage space, while the advanced security features, including a fingerprint reader and HP Sure Platform, safeguard your data. The device is compliant with environmental standards and is ENERGY STAR certified, reflecting a commitment to sustainability. Additionally, it offers a vast range of connectivity options, including USB4/Thunderbolt 4 and dual stereo speakers, making it a fit for all your mobile computing needs.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
