RELIABLE PERFORMANCE

Get More Done – With Built-In AI

Your next great idea shouldn't get stuck in busywork. Powered by AMD Ryzen™ AI Series processors with a built-in neural processing unit (NPU), the Lenovo ThinkPad E14 Gen 8 (14” AMD) laptop automates summaries, drafts, and supports on-device AI tasks — so you stay focused, responsive, and always moving forward.

COPILOT+ PC EXPERIENCES FOR EVERYDAY WORK

Smarter Workflows, Less Effort

Copilot+ PC experiences bring AI into the flow of work, automating everyday tasks, accelerating content creation, and simplifying collaboration. It helps streamline workflows, finds information faster, enhance meetings in real time, and helps you stay organized with on-device AI — so your work stays private and in control.

PORTS AND CONNECTIVITY

Plug in. Stay in Sync.

When you need a second screen, a wired network, or a quick way to plug in your gear, everything is right there. Dual USB4 ports, USB A, HDMI®, and ethernet help you connect without carrying extra adapters. Plus, advanced WiFi and Bluetooth® keep things responsive for meetings and day to day collaboration.

SECURITY & PRIVACY

Built-in Security for Modern Businesses

ThinkShield helps keep work protected from the moment your laptop starts. An optional power button-integrated fingerprint reader gives you a quick, secure way to sign in. Discrete Trusted Platform Module (dTPM) helps safeguard sensitive data at the hardware level while the self-healing BIOS makes firmware recovery easy without added complexity.

THINKPAD TOUGH

Built for Work Beyond the Office

The ThinkPad E14 laptop is engineered for demanding workdays and tested against MIL-STD-810H methods used by the US Department of Defense. From extreme temperatures and pressure to vibration, dust, and humidity, it’s built to deliver dependable performance wherever business takes
