Huion H580X graphics tablet

Huion H580X is a model created to celebrate the brand's tenth anniversary, combining modern design, reliable technology and versatility that will delight both novice and professional creators. An ultra-thin and lightweight design, up to 8192 pressure levels and broad compatibility with graphics systems and programs make this tool a perfect fit for any style of work - from digital painting to remote learning or online meetings.

Sleek form, power of possibilities

The Huion H580X tablet attracts attention with its minimalist and lightweight design - it weighs just 343 g and is only 8 mm thick. It is a device designed with mobility and convenience in mind, fitting easily into a bag and taking up little space on a desk. The tablet's aesthetically pleasing finish emphasizes its creative nature, and the proportions of the working surface (8×5 inches) account for as much as 74% of the device's total space, providing great freedom of action while keeping the workplace tidy. This is a tool made for real artists!

Natural impressions like on paper

Thanks to full panel coverage and a special surface that imitates paper, drawing and writing on the H580X tablet gives an extremely realistic and comfortable impression - almost like on a piece of paper. It's the perfect tool for both sketching and precise graphic designs.

A pen that matches your movements

The included Huion PW100 digital pen is one of the most popular models in the brand's lineup - battery-free, lightweight and extremely precise. It supports 8192 levels of pressure, responds to tilt up to ±60° and provides high fluidity (>220PPS), so every hand movement transfers to the screen smoothly and naturally.

Shortcuts at hand

The tablet features 8 customizable buttons located on the left side, which allow you to assign the most frequently used functions and shortcuts. This gives you a smooth and dynamic workflow - one click is all it takes to speed up the creative process. The buttons can also be used by holding down, giving you additional control options.

Ready to work with any device

Huion H580X supports the most popular operating systems, such as Windows, macOS, Android, Linux and even ChromeOS. It works perfectly with popular graphics software, including Adobe Photoshop, Illustrator, Painter, SAI, GIMP, CLIP STUDIO or Krita. Whether you're creating illustrations, editing photos, studying remotely or video conferencing, this tablet is always ready for action.

Fast and convenient connection

The tablet features a universal USB-C port with a reversible plug function for a seamless and fast connection to your computer or smartphone. You no longer have to wonder which way to connect the cable - you get maximum convenience with the H580X. If you're looking for a compact, minimalist and functional graphics tablet that works well for both creative work and everyday remote tasks - the Huion H580X is the best choice.
