Huion L4S illuminated LED drawing board

Model: L4S

Manufacturer: HUION

EAN: 6930444800093

Product Code: 1065174

R1,910

Huion L4S LED drawing board

The HUION L4S is a slim, backlit LED drawing board that fits easily into a bag or backpack thanks to its thickness of just 5mm. Its lightweight and compact design makes it perfect for both home and field use. The A4-size (310 × 210 mm) working surface gives you enough space for sketching, redrawing, designing or creating tattoos.

Adjustable brightness

The board is equipped with a touch-sensitive button to adjust the brightness. It works smoothly - just hold your finger on the panel to adjust the intensity of the light to suit your needs. Thanks to powerful LEDs with a brightness of 745 cd/m² and a neutral color temperature (8000-10000K), the backlighting is even and the drawing details are clearly visible even in low ambient light.

Protection for your eyes

HUION L4S is designed for long, comfortable work. The use of diffused light technology, with LEDs hidden on both sides and a diffusing layer, ensures even backlighting without point light sources. This reduces eye fatigue, even when sketching or copying designs for hours.

Convenient USB power supply

The board is powered by a standard USB connector, so you can connect it not only to your computer or laptop, but also to a powerbank. This is a practical solution when you are working away from home or don't have access to an outlet. All you need is a cable and you can work wherever you are.

Manufacturer	HUION
Model	L4S
Dimensions	360 x 270 x 5.1 mm
Work surface	310 x 210 mm
Brightness	110 lm
Color temperature	8000-10000K
Screen brightness	745cd/m²
Power supply	USB (powerbank, network adapter, laptop)
