

LANBERG DSM1-1005 5x1GB/S 12V

LANBERG DSM1- 1005 5x1GB/S 12V

Model: DSM1-1005

Manufacturer: LANBERG

EAN: 5901969447750

Product Code: 1065431

R854

The Lanberg DSM1-1005 is a robust Gigabit Ethernet switch designed for efficient networking solutions in desktop environments. Featuring five 1000Base-T RJ45 ports, this switch allows for seamless connectivity across multiple devices, accommodating diverse operational needs. The auto-uplink function simplifies installations by automatically configuring connections, while MAC address auto-learning enhances network efficiency by managing device communications effectively. Built within a durable metal housing, the DSM1-1005 operates within a temperature range of 0°C to 50°C, ensuring reliability in various environments. With a switching bandwidth of 10 Gbps and 7 Mbit buffer memory, it supports high-speed data transfers, making it ideal for both home and small office settings. This Plug-and-Play device is designed for easy setup, allowing anyone to plug it in and start using it almost immediately.
