

LANBERG Switch POE Extender 1xIN 3xOUT DIN 90W

Model: DIN-GE4-BT-90W

Manufacturer: LANBERG

EAN: 5901969447293

Product Code: 1065434

R1,134

The Lanberg DIN-GE4-BT-90W is a reliable Gigabit Ethernet switch designed for efficient networking in varied environments. Capable of operating in temperatures ranging from -10°C to 40°C and with a humidity tolerance of 10% to 90%, this switch can easily adapt to challenging conditions without compromising performance. It features four 10/100/1000Base-T ports, ensuring fast data transmission and connectivity for multiple devices. The switch is compliant with Plug-and-Play standards, allowing for an easy setup to enhance your network infrastructure without unnecessary complications.

With Power over Ethernet (PoE++) support and a PoE budget of 85 W, the LAN switch can power compatible devices directly through the Ethernet cable, reducing clutter and increasing flexibility in installation. The status indicators provide real-time feedback on link activity, and the robust plastic housing ensures durability for DIN-rail mounting applications. This product is ideal for projects that require a stable and efficient network solution in commercial or industrial settings.
