

LANBERG Switch POE 4xBT 4xAT SFP+ETH DIN

Model: ILFE-8P-1GE-1S-120

Manufacturer: LANBERG

EAN: 5901969447378

Product Code: 1065435

R1,669

The Lanberg ILFE-8P-1GE-1S-120 switch is designed to offer reliability and performance in demanding environments, operating effectively between -25°C and 65°C. With a robust metal housing and passive cooling, this device ensures durability while maintaining optimal performance. Featuring a PoE budget of 120 W, it supports PoE++ and provides flexibility in network setups with various port configurations. The unit is suitable for DIN rail or rack mounting, making it an ideal solution for diverse installation environments.

Equipped with 8 ports, including 4 PoE+ ports and 4 PoE++ ports, alongside a gigabit uplink, this switch can efficiently handle data transfer rates of up to 4.8 Gbps. It supports VLAN configurations, MAC address auto-learning, and flow control, enhancing network management capabilities. The LAN switch also features 6 kV surge protection and auto-uplink for seamless connections, ensuring that it can adapt to various network configurations without the need for manual adjustments.
