R838

The Natec CRAKE 2 is a versatile vertical mouse designed to provide comfort and performance for users who require precision in their work. It features a unique ergonomic design that promotes a natural hand position, reducing strain during extended use. With a wireless connection that supports both Bluetooth 5.0 and a 2.4 GHz USB receiver, this mouse can connect to up to three devices simultaneously, making it an ideal choice for multitaskers who switch between devices frequently. Equipped with impressive movement detection technology, the CRAKE 2 offers a maximum resolution of 2400 DPI, allowing for real-time sensitivity switching at levels of 800, 1200, 1600, and 2400 DPI. The mouse also includes six programmable buttons for enhanced functionality, teflon glides for smooth movement, and an on/off switch for energy efficiency. With a maximum operating
