The Natec MEDUSA keyboard offers compatibility with both Mac and Android devices, ensuring a seamless connection for a variety of users. The wireless connectivity through Bluetooth 5.1 and a USB wireless receiver provides flexibility with a maximum operating distance of 10 m, allowing for comfortable use from a distance. With 21 buttons and 117 keys, this full-size keyboard features a QWERTY layout tailored for US standards, ensuring a familiar typing experience for everyone. Constructed with durable ABS housing, the MEDUSA keyboard is designed to withstand daily use while maintaining functionality. The scissors key technology delivers a responsive typing experience, making it a fit for both work and leisure. Offering multiple interface options, including USB-C and USB-A, it adapts to various connectivity needs without hassle.
