

LANBERG PCI-Express RJ45 Ethernet adapter network card PCI-E x1 1X RJ45 2.5GB low profile

Model: PCE-25GB-001

Manufacturer: LANBERG

EAN: 5901969447712

Product Code: 1065448

R796

The Lanberg PCE-25GB-001 is a plug-in network adapter designed to upgrade desktop systems with faster wired connectivity. It delivers 2.5 GbE performance over a standard RJ-45 port to support smoother file transfers, higher-bandwidth applications, and improved network responsiveness compared with traditional Gigabit Ethernet. The adapter uses a PCI Express x1 low-profile form factor and an Intel I226 processor to provide stable operation and compatibility with compact systems. Built-in features such as flow control and Wake On LAN help maintain reliable network traffic handling and remote wake capabilities, while a wide operating temperature and humidity range allow use in a variety of environments.
