

HP EliteBook 6 G2i AI Intel Core Ultra 7 355 14inch 32GB 512GB W11P 3YW

Model: DP4Q4AT#ABB

Manufacturer: HP INC.

Product Code: 1065523

R61,835

The HP EliteBook 6 G2i Next Gen Notebook is a 14-inch business laptop designed to deliver dependable performance, responsive AI features, and secure manageability for professional users. The WUXGA IPS display with a 16:10 aspect ratio and anti-glare treatment provides clear workspace and comfortable viewing, while a combination of Core Ultra 7 processing, DDR5 memory support, and NVMe SSD storage enables fast multitasking and quick application responsiveness. Built-in AI acceleration and noise-reduction audio enhance collaboration and content creation, and a suite of security features including a TPM 2.0 chip, fingerprint reader, chassis intrusion sensing, and tamper protections help safeguard sensitive data. The notebook balances portability and durability with MIL-STD testing, an HP Standard spill-resistant keyboard, enterprise-grade connectivity such as Thunderbolt 4 and Wi-Fi 6E, and reduced environmental impact through recycled materials and energy-efficient design.
