HP Inc. HP EliteBook X G2i Notebook Next Gen Ai is a 14-inch notebook designed for professionals who need portable performance and AI-enhanced productivity on the go. The compact widescreen display and an array of integrated sensors help adapt to typical work environments while delivering a reliable visual and audio experience with four stereo speakers tuned by Poly Studio.

Built for responsive everyday workflows, the notebook combines a Core Ultra 5 processor, LPDDR5X memory with high data transfer rates, and NVMe M.2 SSD storage to support fast application loading and smooth multitasking. An integrated Intel AI Boost neural processor provides on-device AI acceleration to improve collaboration and content workflows, while Copilot+ PC features help streamline tasks. Connectivity includes multiple USB-C and USB4/Thunderbolt 4 ports with Power Delivery, HDMI, and modern wireless networking with Wi?Fi 7 and Bluetooth 6.0 to maintain productive connections across home and office networks.

Security and manageability are prioritized with secured-core PC capabilities, HP Automatic Drive
