HP EliteBook X G2i Notebook Next Gen Ai is a 14-inch professional notebook designed to accelerate modern workflows with built-in AI capabilities and enterprise-grade security. It combines a multi-core Intel Core Ultra 7 processor with a dedicated Intel AI Boost neural processor to help run on-device AI tasks, while LPDDR5X soldered memory and integrated Intel graphics support responsive multitasking and everyday productivity. The system supports versatile connectivity including USB4/Thunderbolt 4 with Power Delivery, HDMI, and USB-C, and delivers a collaboration-focused experience with four stereo speakers tuned with Poly Studio, AI noise reduction for audio input, and Windows Studio effects support. Security and manageability features such as Secured-core PC enablement, HP DriveLock, HP Automatic Drive Lock, chassis intrusion sensing, HP Tamper Lock, Kensington nano security slot, and BIOS update via network help protect data and simplify IT oversight, while Low Blue Light certification and a spill-resistant keyboard support comfortable daily
