Experience the capabilities of the HP EliteBook X G2q Notebook Next Gen AI, designed to elevate productivity and streamline workflows. The notebook features a 14-inch widescreen display equipped with Low Blue Light technology, ensuring comfort during extended use. With a powerful 8-core Snapdragon X Plus processor and 32 GB of LPDDR5X RAM, performance is optimized for multitasking and demanding applications. Additionally, the integrated AI technology enhances audio input with two microphones featuring noise reduction and improved sound output through dual stereo speakers.

The chassis of the notebook is equipped with multiple sensors including an ambient light sensor, gyroscope, and thermal sensor to adapt to various environments effectively. Security is prioritized through the HP Sure Platform and a Kensington nano security slot. With HP Fast Charge and a USB-C charger included, keeping the device powered throughout the day is simple.
