Lighthouse Enhance

This premium subscription includes all the features of the Core, plus access to additional advanced capabilities like Smart Management Fabric™ (SMF) and the Connected Resource Gateway (CRG).

Lighthouse Enhance assists network engineers, system administrators, and IT infrastructure teams by streamlining operations of the out of band management network and IT infrastructure.

Lighthouse Enhance enables infrastructure management with automated deployment and seamless oversight of the management network. It ensures operational resilience by maintaining connectivity to your management LAN, even if the primary network connection goes down, using cellular failover
