Opengear 4 SERIAL PINOUT, 2 GBE, GLOBAL LTE-A PRO gateway/controller 10, 100, 1000 Mbit/s

Model: ACM7004-2-L

Manufacturer: OPENGEAR

EAN: 843295102925

Product Code: 1065926

R27,165

For small IT deployments at edge locations, the Resilience Gateway provides secure remote access to your critical devices via Smart Out-of-Band management. An embedded, global 4G-LTE cellular modem offers an alternate path when the primary link is unavailable.

Connect devices directly to this small form-factor console server via 8 serial and 4 USB ports, providing always-on access to your remote networking equipment. Every model includes 4GB internal memory. Options include a 4-port GbE switch and models without the cellular modem.

Part of the Opengear Network Resilience Platform, the ACM7000 Resilience Gateway with Lighthouse
