Zeblaze Stratos 4 Pro Smartwatch (Black)

The Zeblaze Stratos 4 Pro is an advanced outdoor smartwatch that combines a rugged design with extensive sports and navigation features. It features a 1.43-inch AMOLED display with a resolution of 466 × 466 pixels and a brightness of up to 1,000 nits, ensuring a clear display both in direct sunlight and after dark. The built-in navigation system uses as many as 6 satellite and GNSS systems, and the battery lasts up to 60 days (in power-saving mode). Additionally, you have access to a built-in LED flashlight and over 170 sports modes. All of this makes the smartwatch ready for both everyday challenges and demanding outdoor adventures.

Ready for Harsh Conditions and an Active Lifestyle

The watch was designed for users who expect reliability in all conditions. The 316L stainless steel bezel, sturdy case, and durable display covered with Corning® Gorilla® Glass ensure high resistance to harsh weather conditions, shocks, drops, and impacts. With 5 ATM water resistance, you can use the smartwatch without worry during workouts, swimming, and outdoor activities. An added benefit is the easily accessible buttons, which allow for convenient operation even during intense movement.

Clear Display in All Conditions

The large 1.43-inch AMOLED display offers a highly detailed image thanks to a resolution of 466 × 466 pixels and a pixel density of 391 PPI. Brightness of up to 1,000 nits makes it easy to read data during activities in direct sunlight, and the Always-On Display feature allows you to view key information at all times without having to wake up the watch. The high-quality screen ensures that maps, workout data, and notifications remain legible regardless of the conditions.

GPS navigation and maps always at your fingertips

The Zeblaze Stratos 4 Pro is equipped with a GNSS module and utilizes as many as 6 positioning systems (GPS, GLONASS, GALILEO, NAVIC, QZSS, and BDS). This solution improves location accuracy and signal stability during outdoor activities. The smartwatch also allows you to download maps via an app and provides turn-by-turn navigation. Additionally, the built-in compass and barometric altimeter help you better orient yourself in the terrain while trekking or running.

Over 170 sports modes

The smartwatch offers over 170 sport modes, enabling detailed monitoring of training metrics. The device automatically recognizes 6 types of activities and tracks metrics such as heart rate, distance, pace, step count, and calories burned during workouts. Swimmers will appreciate advanced analysis features, such as lap counting, pace, stroke count, and the SWOLF efficiency score. Training data can be synced with popular fitness platforms like Strava, Google Fit, and Apple Health.

Health Monitoring Around the Clock

The watch offers a comprehensive set of real-time health monitoring features. The device measures, among other things, heart rate, blood oxygen levels, and stress levels. Additionally, advanced sleep

tracking is available, covering REM sleep, daytime naps, and analysis of breathing quality during rest. You can also receive notifications about concerning symptoms. All of this helps you better understand your body and respond quickly to potential health issues.

Long Battery Life and Fast Charging

The 500 mAh battery ensures very long battery life. In power-saving mode, the smartwatch can last up to 60 days; during typical use, up to 30 days; and with heavy use, up to 18 days. Charging is done via a magnetic cable, and a full charge takes about 1.5 hours. All of this makes the device ideal even for long trips—you won’t have to plug it into a charger too often!

An Extension of Your Smartphone

The built-in microphone and speaker let you take phone calls without taking your smartphone out of your pocket. The watch lets you answer and make calls, control your music, operate your phone’s camera, and receive app notifications. The device also supports ChatGPT voice control. Plus, you can play your favorite songs directly from the smartwatch’s internal storage, which can hold about 50–100 tracks.

LED Flashlight and Additional Features

One of the standout features of the Stratos 4 Pro is its built-in LED flashlight with white and red light modes. This feature comes in handy during evening workouts, walks, or outdoor activities after dark. The smartwatch also offers a range of useful features, such as weather checks, an alarm clock, a stopwatch, a timer, a calculator, a world clock, phone locator, inactivity reminders, and women’s health tracking.

Full Customization in the App

Once paired with the GloryFitPro app, you’ll have convenient access to detailed health and fitness statistics. You’ll also find helpful tips to help you achieve your fitness goals. You can also take advantage of additional customization features—choose from hundreds of available watch faces.
