EAN: 6972470564495

Product Code: 1066278

R952

ONIKUMA CW953 gaming mouse (black)

The ONIKUMA CW953 is a gaming mouse created for gamers who want comfort, fast response and freedom of connectivity. Its contoured design provides stable support for the hand, and six DPI levels (from 800 to 12800) allow you to adjust the sensitivity for different gaming genres. The device supports three ways of connection (Bluetooth, 2.4 GHz, USB cable), and has an integrated storage compartment for the 2.4 GHz receiver and six buttons with the option of programming macros or shortcuts. This makes it great for any workstation!

Ergonomic design to fit your hand

The CW953 mouse is contoured to provide natural palm support. This design reduces fatigue and makes it easier to maintain a stable grip. As a result, the device works well for both quieter gameplay and dynamic action - allowing you to play for long periods of time without feeling uncomfortable. What's more, there is a hidden storage compartment on the bottom of the mouse for

the 2.4 GHz receiver, making it easy to store and reducing the risk of losing it.

Six DPI levels

The mouse offers six DPI settings - 800, 1200, 2400, 3200, 4800 and 12800, allowing you to match the sensitivity of the sensor to different types of gameplay. What's more, the optics used enable precise reproduction of movements. All this makes the CW953 perfect for both dynamic FPS games and titles requiring high accuracy.

Three connectivity modes

The CW953 supports wired mode, 2.4 GHz connectivity and Bluetooth. This allows it to be used in a variety of scenarios. It will work well both on a PC gaming workstation and in conjunction with a laptop. The 2.4 GHz band provides exceptionally stable performance, the wired mode eliminates lag, and Bluetooth allows quick connection to compatible devices.

Six buttons - more convenience and control

The mouse is equipped with six buttons: left and right, two side buttons, a dial and a DPI switch. This layout allows you to conveniently control and adjust settings while playing. You can even program your own macros and shortcuts to use the most frequently used functions at a glance.

Included

- Mouse
- 2.4 GHz USB receiver
- USB-A to USB-C cable
- User manual
