What is Backup Plus?

Backup Plus is the family of external drives from Seagate that lets you do more with photos and films, protect everything in your digital life, and manage it all from a single, intuitive dashboard.

- Choose from two easy backup options for what is important to you
- Share multiple media files on networks such as Facebook and Flickr
- Save the photos that you have shared online automatically
- Upgrade your connection instantly with swappable upgrade adapters

Up to 4TB capacity

Space for everything you have. No more having to pick and choose what you protect.

Easy backup options

Choose scheduled or continuous backups right from the dashboard — and then forget them.

Works with PCs and Macs

Use the drive interchangeably on your PC or Mac computer without reformatting.

USB 3.0 plug and play

It is easy to upgrade to Thunderbolt™ technology or FireWire® 800 with add-on adapters (sold separately). USB 3.0 is also backward compatible with USB 2.0.

Protect...

Photos, videos and more. Automatically.

Life is full of amazing moments that you want to remember for ever. The Backup Plus desktop drive lets you set up easy automatic backups of all your data, so you know that even if “life happens” to your computer, your memories are always protected.

Save...

Your social life with a click.

Think of how many photos you have shared on Facebook or Flickr. With Backup Plus, it is easy to download them right to your Backup Plus drive, so even more of your life is safe and sound.

Share...

Your favourite moments instantly.

With Backup Plus, your memories are not “trapped” in your drive. Just a click lets you share photos

and videos to Facebook, Flickr or YouTube right from your Backup Plus drive.

Upgrade...

Your connectivity instantly.

Bought a new computer with Thunderbolt™ technology or FireWire 800? Not a problem. Changing your data connectivity is as easy as plugging in a new adapter.* So when you upgrade, your Backup Plus can be upgraded right along with you.
