Seagate Savvio 10K.6 900GB 2.5" 6G SAS internal hard drive 10000 RPM 64 MB 2.5"

Model: ST900MM0026

Manufacturer: SEAGATE

Product Code: 10856

R3,490 ~~R4,640~~

Performance Upgrade for 10K- or 15K-RPM Hard Drives

Savvio® 10K.6 is an ideal upgrade. It delivers best-in-class performance, high capacity and low power that data centers crave and need to meet demanding service level agreements, keep up with data growth and reduce IT operating costs.

The Savvio® 10K.6 hard drive enables OEMs, system builders and data centers to:

- Improve data center storage efficiency
- Enhance reliability with advanced media management technology
- Built-in security at no extra cost

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Improves drive storage efficiency

Transition from slower, underperforming (or larger form factor drives) to the smaller, faster and best-in-class Savvio 10K.6 hard drive.

With higher capacities and a smaller footprint, data centers can store and access data faster than ever, enabling them to keep pace with data growth while optimizing scarce IT real estate. Lower power consumption reduces energy and cooling costs.

The latest Savvio 10K.6 drives:

- Deliver up to 21% faster sequential performance than previous generation
- Store up to 50% more data than even the highest-capacity 3.5-inch, 15K HDDs

Enhances HDD reliability

Savvio® 10K.6 advanced media management technology improves drive reliability and data integrity.This sixth-generation Savvio hard drive lets you rest easier knowing your storage devices will perform as expected. The Savvio 10K.6 drive is the first mission-critical HDD to offer a Seagate® RAID Rebuild™ technology option, making RAID recovery faster and safer.

Protect data with built-in security

Seagate Enterprise Performance 10K drives are self-encrypting and can be used as normal drives or as part of a more secure solution at no extra cost. Built-in security and Protection Information features enable companies to protect valuable data, comply with regulatory mandates, and reduce risk to brands and reputations. Seagate Instant Secure Erase reduces the time required to overwrite a drive from hours to less than a minute-making drive retirement safe, fast and easy.
