The HPE Networking Comware 2050 24p 10/100/1000BT PoE+ 4p SFP 1G/2.5G 420W switch is designed for robust network environments. With 24 Gigabit Ethernet ports and enhanced Power over Ethernet capabilities, this switch provides reliability and performance to support various applications. Its dual stack support for IPv4 and IPv6 combined with a forwarding capacity of 80 Gbps makes it suitable for both current and future network demands.

This switch features a range of management protocols including SNMP 3 and CLI for simplified network administration. Equipped with Intelligent Resilient Fabric Technology (IRF) and 6 kV surge protection, it ensures network stability and security. The rack-mountable design and stackable capabilities allow flexible deployment to meet diverse operational requirements.
