

HPE Networking CW 2150 16p 10M/100M/1G PoE+ 4p SFP+ 1G/10G 248W Switch EU en

Model: S6X55A#ABB

Manufacturer: HEWLETT PACKARD ENTERPRISE

EAN: 190017821207

Product Code: 1087446

R18,468

The HPE Networking Comware 2150 16p offers robust performance and flexible connectivity, making it a vital choice for businesses seeking to enhance their network's efficiency. With 16 10/100/1000Base-T ports that support PoE+ for powering devices directly through the network, this switch is designed to simplify installation and reduce cabling costs. The four 1G/10G SFP+ ports provide high-speed uplink and stacking capabilities, enhancing scalability for future growth while maintaining reliable operation.

Engineered for high-performance networking, it supports up to 176 Gbps forwarding capacity and offers advanced features such as Quality of Service (QoS) and intelligent fabric technology. Its durable design operates efficiently within a temperature range of -5°C to 50°C and can handle humidity levels of 5% to 95%. This switch also includes a management interface via USB Type-C and is compatible with various remote management protocols for simplified network administration.
