EIZO FlexScan EV3851X-WT computer monitor 95.2 cm (37.5") 3840 x 1600 pixels UltraWide Quad HD+ LCD White

Model: EV3851X-WT

Manufacturer: EIZO

EAN: 4995047072201

Product Code: 1087574

R34,306

With a 37.5-inch screen size, curved display, and UWQHD+ resolution (3840 x 1600), the EV3851X is ideal for organizing large amounts of data and working with multiple applications without the distracting bezels of a multi-monitor setup. It comes with a 7-year manufacturer’s warranty thanks to high-quality design, meticulous manufacturing, and strict quality control in Japan. With its USB-C port, video, audio, LAN, data, and 94 watts of power can be transmitted to a laptop via a single cable—convenient for home offices and hot-desking. HDMI and DisplayPort interfaces round out the connectivity options. Thanks to the integrated KVM switch, two PCs can be connected simultaneously, operated with a single set of mouse and keyboard, and even displayed at the same

time using picture-by-picture. Various display modes support common color standards such as Display P3 (used in Apple devices), DCI-P3, and BT.709, making them suitable for video editing and previewing; Switching between them is easy with the push of a button. The monitor meets international sustainability standards such as ENERGY STAR®, TCO Certified Generation 10, EPEAT, and EPEAT Climate+ to support Environmental, Social, and Governance (ESG) goals as well as SDG (Sustainable Development Goals).
