The Lenovo ThinkPad P16s Gen 5 is designed to meet the demands of professionals with its robust capabilities and high-performance specifications. Equipped with a 16-inch display that features a 16:10 aspect ratio, this mobile workstation offers an anti-glare surface and low blue light technology for extended viewing comfort. With a brightness of 500 cd/m² and a screen-to-body ratio of 89%, it delivers clear visuals for intense work sessions. The laptop's advanced audio setup includes Dolby Voice and Dolby Atmos, providing a rich sound experience for video calls and multimedia presentations.

Powered by an AMD Ryzen AI 9 HX PRO processor and featuring integrated artificial intelligence, this notebook boasts a 12-core architecture and a maximum turbo speed of 5.2 GHz. Coupled with 64 GB
