

LENOVO P1 G9 Intel Core Ultra 9 386H 16inch 64GB 1TB UMA 5G-UPG 90Wh W11P 3yPS Co2

Model: 21UE000DMH

Manufacturer: LENOVO

Product Code: 1087865

R111,536

The Lenovo ThinkPad P1 Gen 9 is designed to meet the demands of professionals who require a reliable and powerful mobile workstation. With a 16-inch LED display featuring a native resolution of 1920 x 1200 and a color gamut covering 100% sRGB, it delivers visuals that are ideal for graphic design, video editing, and other media-rich applications. The advanced anti-glare technology and low blue light features ensure comfortable viewing for extended periods, reducing eye strain while enhancing productivity.

Powered by a 16-core Intel Core Ultra X9 processor, the ThinkPad P1 Gen 9 can reach speeds up to 5.1 GHz, making it suitable for multitasking and handling demanding software seamlessly. Equipped with a generous 64 GB of LPDDR5X RAM and a 1 TB SSD, this workstation provides high-performance storage and memory capacity. Additionally, the device is MIL-STD-810H tested for durability and includes security features such as a fingerprint reader and a discrete Trusted Platform Module (TPM) security chip, ensuring data protection whether in the office or on the go.
