R73,164

The Lenovo ThinkPad X13 Detachable Gen 1 is designed to provide both portability and versatility. This sleek 2-in-1 notebook features a 13-inch WQHD display with a resolution of 2880 x 1920, ensuring vibrant visuals and responsive touch capabilities with its 10-point multi-touch technology. Coupled with Dolby Atmos compliant audio delivered through stereo speakers, this device makes streaming media enjoyable and immersive. Whether in tablet mode or laptop mode, the Lenovo ThinkPad X13 stands ready to adapt to any workspace, enhancing productivity wherever needed. Equipped with robust security features like a fingerprint reader and a discrete Trusted Platform Module (TPM) 2.0 security chip, this device ensures peace of mind for users concerned about data protection. Powering the device is Intel's Core Ultra 5 processor and fast LPDDR5X SDRAM, providing
