Discover the perfect blend of design, functionality, and sustainability with the Logitech MX Keys S Combo for Mac. This keyboard and mouse set is tailored for Apple users, offering seamless compatibility with iOS and Mac devices. Experience the convenience of wireless connectivity through Bluetooth LE, which provides a clean, cable-free workspace. The keyboard boasts a backlit design with a numeric keypad and palm rest, ensuring comfortable typing even in low light conditions. Meanwhile, the mouse features a high-precision 8000 DPI laser sensor for flawless tracking on almost any surface. With 26% of the product made from post-consumer recycled plastic, the MX Keys S Combo not only enhances your productivity but also supports environmental sustainability. Whether you're working from home or in the office, this keyboard and mouse set is designed to elevate your computing experience.
